

UNIVERSITY PROGRAM ADVANTAGES

1. Free college tuition and books for students who take dual enrollment courses
2. Free AP and CLEP exams
3. Potential for college credit through AP, CLEP, and dual enrollment opportunities
4. ACT Preparation to increase scholarship opportunities
5. Small class sizes with similar advanced peers
6. Isolated academic classrooms with a school-within-a-school model
7. Technology-enriched learning environment
8. Experiences that focus on the major areas of college and career readiness as well as community service

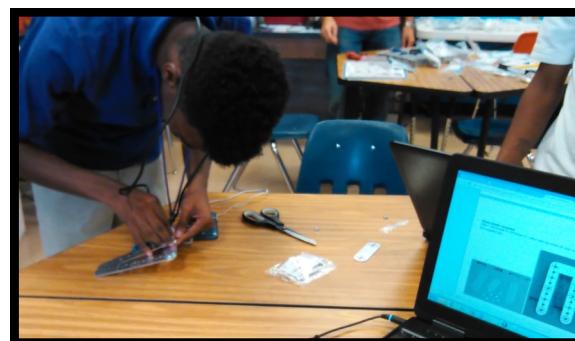

Life in the “U”

University Program students work in the McNeese State Science Lab on various hands-on experiments to learn more about the school's Science Department.

University Program students visit Louisiana State University to tour the campus and learn more about admissions, scholarships, and campus life.

University Program students work on hands-on experiments which require them to apply knowledge gained in class to real world scenarios such as in this Robotics lesson.

FROM THE VIEW OF STUDENTS

“Although the program may get tough at times, that just makes me want to work and become the successful student that I know I can become.”

“It is challenging, but it is just a challenge waiting to be overcome.”

“It’s helping me to see what I want to be when I graduate.”

“The U Program is going to help me with my future.”

“It’s like we’re one big family. I love it!”

“We have had so many different opportunities that is unique from other high school experiences.”

“It helps us prepare ourselves for the future. We are treated as young adults maturing into adulthood.”

Sample Coursework in the University Program

English 101 and 102

Human Geography

U.S. Government

U.S. History

Western Civilization

Math 113

Math 231

Biology 101 and 102

** Additional courses based on career interest in Senior Year of High School

**AP Testing, CLEP Testing, and Dual Enrollment will be offered when appropriate

**University Program Students who qualify for all college course opportunities and pass necessary exams and coursework could potentially earn over 30 college credit hours.

FROM THE VIEW OF PARENTS AND TEACHERS

“I’m happy for my son to have this opportunity. It has helped him talk more about colleges and his future.”

“This is such a nurturing environment that enhances students’ social skills and provides the chance for high-performing students to achieve more.”

“The U Program challenges and encourages our youth which is critical for success.”

“The small class sizes, technology-rich instruction, and college readiness focused curriculum makes the U a great choice for students moving toward higher education.”

“Students have a chance to participate in some one-of-a-kind experiences that help grow their own leadership potential.”
